

WORD BATTLESHIP DIRECTIONS

- Write 5 to 8 words on your **battleship board** going down or from left to right. (No diagonal or backward words.)
- Put up a barrier so your friend can't see your ship locations (words). You can sit away from each other or use a book or folder.
- Now take turns making a guess like "B2".
- If your friend has a letter there, he/she will say "Hit, letter ___" and you will write it in that space of your **guess board**. He/she will circle the letter on his **battleship board**.
- If there is no letter, then he/she will say "Miss" and you will put a dot on your **guess board** in that spot.
- Take turns until a word is spelled by having all letters hit. At that time you say, I just sank your "_____(say the word)" and then he circles it so that he/she knows it has been sunk. On your battleship card, all the letters of that word will be circled.
- First one to sink all of the opponent's words wins.
- If time runs out – the winner is the one who sank the most.
